Total Acidity. 6.2 g/L

pH. 3.6

Bottled. March 1, 2013

Production. 518 cases
(Estate-Grown & -Bottled)

Appellation. Finger Lakes

Comments.

Our extremely popular *Hunter's Red* is a unique, non-traditional red wine. We blend three red wines with one **white** wine – all aged in stainless steel – to produce a smooth, easy red wine that is hearty but low in tannins. Corot Noir is a French-American grape with cherry notes, and the DeChaunac grape adds a hint of raisins or plums.

Great on its own at room temperature or lightly chilled, *Hunter's Red* is particularly delicious with barbecued meats and sweet/sour dishes. *Hunter's Red* also appeals to “white wine drinkers”. Enjoy!
